PROFILE

Senior Android Developer and Software Engineer with 5+ years of experience building mobile products and the systems that help teams ship them reliably. My work spans fintech and consumer apps, from product features and authentication to build automation, performance, observability, and on-device ML.

EXPERIENCE

Senior Android Developer

Nov 2024 - Present

Tinkoff / Remote

- Led a cross-platform subscription feature from specification to release in 4 weeks, increasing subscription conversion by 4%.
- Reduced Android resource integration from 2 days to 5 hours by building a CI pipeline.
- Built alerts, performance metrics, and on-call routines from scratch, reducing issue detection from days to hours.
- Introduced AI-assisted mobile QA workflows with agent-driven Android UI testing, improving coverage of product regression scenarios.

Android Developer

May 2023 - Nov 2024

VK / Hybrid / Moscow

- Designed and launched an IPC-based Passkey flow on Android, increasing authorization conversion by 6%.
- Led two cross-platform product features from implementation to release.

Junior Android Developer

Sep 2021 - May 2023

Yandex / Hybrid / Moscow

- Developed user-facing Android features for Yandex Keyboard.
- Integrated ML models into the Android app and implemented on-device inference flows.

SKILLS

Mobile engineering / Android, Kotlin, Jetpack Compose, Kotlin Coroutines, Dagger, Software architecture

Developer productivity / Gradle, Build systems, CI/CD, Release automation, AI-assisted mobile QA

Reliable product delivery / Performance, Observability, Mobile authentication, Passkeys, On-device ML

EDUCATION

Higher School of Economics

2019 - 2023

Bachelor's degree in Computer Science, Software Engineering

Thesis: Development of a Geosocial Service with Automatic Media Content Collections Generation

LANGUAGES

English / B2 (Upper-intermediate)
